

😊 Aquilla 😊

I really couldn't believe how much fun camp was; feeding the animals and even cleaning their troughs was surprisingly fun. The playground dome was perfect for Sniper. I can't believe I missed it on the last night. I had to leave because I had got a call back for my drama and music theatre auditions at John Curtin. Yay, I got in!

In first term I am not really sure what I did to my foot but I was on crutches for a while 😊. I had a massive trampoline accident. I went along to the footy clinic anyway.

This is me at the Be Kids Community Fair, doing drumming with Stacey and Martin.

The Festival was very colourful and fun, even though I don't think anyone got what we were supposed to be, which was *Evolution*. I am a walking fish, which is part of the evolutionary chain between the ocean bit and the lizards.

Me and Ben making a Maple charm in art. I hope it will bring us more good luck.

On camp we had damper with Farmer Ted. It was delicious with maple syrup. We also had billy tea; I really liked it.

On Options Day me and Jade made a Kerry Street eye out of felt; it is watching you.

Wylie, Harry and Callam came to my house for a Maple Party. Yes! Wylie leveled up twice and Harry and I leveled up once. Callam was so annoyed he didn't. We wanted to have a whole class Maple Party but we couldn't fit at one house so we split.

This is me just after Hardey and Bec's *Broom Broom* show. I am having a great time on the rocking horse thing.

This is my puppet, Jeffrey, I made with Geraldine in art. I made him by rolling up strips of newspaper and cutting out bits of cloth for his clothes. He has one really big eye and one really small eye.

👉 Mum is teaching Indonesian still and Minna comes in with her every Monday. Minna will be coming to Kerry Street next year.
