

CALLAM

Hello, my name is Callam Edwards. I have three brothers and a dad and a mum. I have two cats. I have brown eyes, I am eleven, I have blonde hair and I like origami.

My favourite colour is orange. I like to play football and cricket, Yu-Gi-Oh and Maple Story on the internet. I like to play on my Nintendo Wii, go to Jade's farm and support the West Coast Eagles. Drawing stick figure wars is fun as well as making stick animation on my cousin's computer.

My best friends are Louis, Shaquille, Jarrad (who doesn't come to Kerry Street), Ben Aquilla, Jade, Stephen, Wara, Wylie, Michael, Harry, Willow and Rohann (who also doesn't come to Kerry Street).

Kerry Street was great because of the camps, the art with Mum and Ariane, the Born Storytellers program with Kevin and the awesome excursions we have had this year. I am hoping to get into Applecross Senior High School for guitar.

In January, a group of people from our school and their families went to Busselton camp site and we did archery. We went to a beach that had huge waves that were about the size of our school. When we were trying to get out, the water was pulling me and Ben back in. Geoff was trying to pull us back up when we fell down and a huge wave was coming.

Our school went to Kings Park for the Great Quiz on Legs and we got to hold a hawk and see some cool bugs and snakes.

Thank you Tony for teaching us music and I hope you have a good time in Margaret River.

On our picnic day at Piney Lakes we played sardines and I hid up a tree. We all took bikes and rode around the park. At the end we rode all the way back to Kath's place.

On Options Day Tom did origami and we were trying to make a basefold three, which you had to use for just about every single one of the things, which was really hard. I spent most of my day doing origami trying to get that basefold!

Jamie Graham and Will Schofield from the West Coast Eagles did a clinic with our school at Bakers Square on Wear Your Footy Team Colours Day.

Jade and I made a mosaic fruit bowl in art. I also made a mirror.

(Ed's note: they said they would keep an eye out for Callam Edwards!)

We did perspective drawings in art class. It's hard to get all the vertical lines vertical.
