

CORMAC

I am Cormac Westbury. I have only been at Kerry Street for two years and I already have to go off to high school. I'm going to Melville Senior High School and we'll see if it can measure up to this school.

I've made a few friends and met some interesting people and there are some really nice teachers here. I really like maths. The Ern Halliday camp was really good, especially the flying fox.

Some of my favourite computer games are World of Warcraft and Fable. My favourite book series is Artemis Fowl; all the crazy ideas that are in it. Favourite food? Tortillas!

This was for an art project with Geraldine, where we had to get a picture of ourselves, cut ourselves out and then redraw our surroundings.

Lilypilis are a nice fruity thing that I discovered at this school. Sometimes they're hard to get to.

This is a shot of me playing on the school playground.

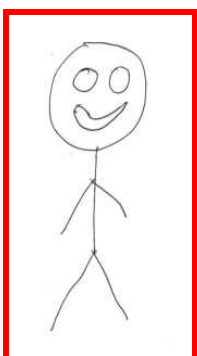

This is a costume I made for the Fremantle Festival which had the theme *Transformation*. Kerry Street Community School took that idea and made it into *Evolution*, so I decided to make an amoeba costume out of a painted mosquito net.

This is a picture of going through the tunnel at The Great Escape. I went to The Great Escape on my first camp at Kerry Street. It was really good!

This is me trying to get a good smile shot... stick man can do it, why can't I?

This is Willow trying to bury me alive.
