

# Max

When I was playing cricket I got some goals, and when I was doing a throw one the other guy didn't get any goals and I didn't hit the green bit.

When Ben helped me with the writing of my dad and me.

The jockey has a number two on him and the horse has a number one on his butt.

When I was feeding the goat my dad brought me some bread and then I was feeding the other goat, I was feeding the little goat, and when both of them were full I saw the duck in there. There was a duck in there as well!

When I was doing that I was wearing that hat and my dad brought that to me because I wanted it and Ullani's mum took a photo of me.

Things that make me happy: That's my dad helping me get the mail and that's Woody playing a game with me and I like eating jelly as well.

When I was eating damper I was first eating on a chair and now I eat off the chair.

There is a funny crown on my head; when I was wearing that I made a hole with a ball and I write my name inside it.

When I was eating my yummy food. I like that food, I like lots of that food and then I was full.

About that, I holded it and I hold it like that (*carefully, rocking*) and it feeled so warm and so cooled and then I gave it to someone else.

When I did the princess day I was wearing that and when I go home I don't wear that. I go home and don't want to wear the crown any more; I take it off and put it somewhere safe where Hennie can't reach it.

Tom took a photo of that and I was sitting down with my cards on the floor

This is number nine.
