

# Shaquille

Hi, I am Shaquille and I have been coming to this school for three years and it's very fun compared to my other school because there are nice teachers here. I live with my mum and my dog, called Buster. He is a shitzu and he loves people especially when they lie on the ground because he likes jumping on them and licking their faces.

I am going to Applecross Senior High School and Michael, Ben and maybe Callam might be going, too, and that's cool.

I like to go to the Sunday Yu-Gi-Oh tournaments and on Saturday I play cricket and it's very fun, especially when I get a catch or a bowled or hit a four.

My favourite subjects at school are art and science and maths.

This is me making cookies for me and my mum for snacks.

This is me in art, making a mosaic for my mum for Christmas.

This is me at the Coogee Beach Challenge eating Sao biscuits with no water and it's really hard but we won and that's the best thing.

Camp! It was so fun when we got there. We got all our stuff and chose a house thing and put all our stuff on our beds. We had a look around the place and Ben found a mulberry tree. We ate the mulberries and they were so good and Callam and Ben said not to tell anyone so we didn't but they found out anyway.

So I went looking for animals because someone said there is a farm, so I went looking for the farm and I found it. Lots of people were there so I went in and turned left and saw lots of roosters and chickens and eggs. And it was really fun seeing the little baby lambs and baby goats and little pigs. The cows were good and the ponies were cool as well. And Lily; she was really cool because you could pick her up and she wouldn't bite. Lily was an orphaned baby goat.

It was cool going into the playground and it was really fun playing murder in the dark and spotlight. It was probably one of my favourite camps.

This is me helping Connor to make a Fathers' Day picture for his dad and some writing for his dad.

This is me and my mum at the Festival and we are about to walk in the parade and I am dressed as a devil.

This is me holding a bird of prey that kills small animals like mice and it's cool.
