

Twilight

Hi, my name is Twilight. My birthday is 13/11/97.

My favourite animal is a cat (not a cow, even though cows are cool). My favourite singers are Miley Cyrus and Lady Gaga. My friends at school are Cait, Katie G, Katie K, Milla, Will, Sol, Thomas, Harry, Woody and Carnie.

This year I got my hair layered by Ruben's mum, Nilla. I like my hair.

This year my jumper broke so my nan got me a new one and it was a purple Hallo Kitty jumper which you will see in lots of pictures because I wear it nearly every day.

This year I went to Adventure World for the first time, with Cait, and went on all the slides and my favourite slide was the Tunnel of Terror.

For the game one day we were doing things with partners and my favourite thing was when we got to spin around and around and around. It made me dizzy.

This year my dad got married to my aunty's neighbour and now I have a stepmum and a step brother and my stepmum is having a baby next year and it's a boy and his name is Dragon. At the wedding I was the bridesmaid and my cousin, Kara, was the flower girl and my new step brother, Caleb, walked his mum down the aisle.

A man from Indonesia came to see us and I got to dress up in traditional costume.

My favourite bit of the playground is the swing outside near the mural.

In art we had to draw a wolf and a tiger but my favourite drawing that I did was the wolf.

In first term in maths we were learning about 3D shapes and we had to make them out of plasticine and little sticks and I made a cube.

On the Fremantle Festival Parade I dressed up as a butterfly and we walked all through Fremantle and we kept giving people high fives.

On World Environment Day a man was teaching us what to do when somebody gets hurt and you have no supplies. Callam said I was the lightest so I got to be picked up by everybody in the stretcher. We made the stretcher out of big sticks and old t-shirts. On that day we got to make a really yummy drink out of lemonade and many more soft drinks and icecream to show what happens to the waste water. The icecream was the rocks and the pink drink was the waste water. The lemonade was the normal water. It was very yummy when we got to eat it.

At Kings Park we got to see lots of animals and we got to pat them and I got to hold a bird.

In third term, when Tony the music teacher went away, he asked me to make up a dance to a song and now we have finished it and its really fun and everyone in the class loves doing it. We are doing it at graduation.
