

WILLIAM

Hi, I'm William. I am nine years old. My best friend is Harry. Every Christmas my Granny and Grandad come over from England.

I have four cats; their names are Sooty, Bundles, Moodles and Mummy Puss. She had two litters of kittens, the second one we had to give away. We gave one to Callam, one to Avalon and two to Otis and Aeron.

My favourite food is icecream, especially bubblegum flavour. My favourite movie is The Matrix. I like to play on the computer in the holidays. I like going to the beach and playing with my friends.

On the first term, Zelda brought in some ducks to show us all and we got to hold them. Holding a duck felt like holding a little fluff ball.

This day we went to Kings Park for The Great Quiz on Legs. I got to hold a bird of prey. We also went to see the memorials and we played.

Here I am swinging on the playground equipment. I am having fun.

On the first term we made 3D models out of plasticine and toothpicks. Mine was a timer.

Here I am, swinging on the new playground. I was playing on the playground with my friends.

For the parade the theme was Transform and the school was doing from amoebas to space men. I dressed up as a dinosaur dog. The parade was really fun and it wasn't too hot, which was good.

This is my mosaic we did in art class. It was fun and the grouting was like digging up artifacts.

Here we are: me, Twi and Sol put all our Lego creations together to make one big Lego house.
